Hydradyne is proud to offer the complete product offering for your CNG/LNG needs. From fittings, filters, hoses, valves, couplings, nozzles, and receptacles. We are a CSA certified CNG hose assembler for CNG fuel dispensing, CNG fleet vehicles, CNG fuel transfer, and industrial gas applications. Being a full line Parker channel gives us the ability to be your one source for all of your natural gas needs. We partner with OEMs for custom fuel solutions and work with CNG/LNG fuel station installers providing the components necessary so they can complete their install. We look forward to being your resource for your natural gas applications.

BHF is a CSA certified factory authorized CNG high-pressure hose assembler that specializes in supporting the CNG vehicle fueling market. Our specialty is building custom CNG twinline hose assemblies with quick turnaround times. We stock large quantities of CNG single line and twin line hose along with a large selection of Parker O-ring face seal and A-LOK adapters, and snap-tite breakaways and nozzles. BHF can do everything from making custom tube fabrications to designing and building time-fill poles with our integrated manifold and installing the time-fill poles in the field.
