Racor Product Showcase

For The Construction Market

ENGINEERING YOUR SUCCESS.

Fuel Conditioning and Filtration

Filtration and water separation is critical to efficient diesel, gasoline, and alternative fuel engine operation. Racor Division has become the leader in filtration technology, partnering with engine manufacturers to design and produce innovative systems. **Please see brochure #7529**

Filtration Pumps

Racor has raised the bar for fuel filtration systems by offering an extensive line of fuel filters with integrated fuel priming pumps. These assemblies feature all of the protection of a standard Racor filter with the added value and convenience of a fuel pump. **Please see brochure #7683**

Fuel Dispensing Filtration

Filtration and water separation from the day tank into the fuel tank is essential to ensure that your engine is running on clean dry fuel. Racor offers a full line of system solutions for fuel dispensing applications. **Please see brochure #7537**

Crankcase Ventilation

Racor Crankcase Ventilation Filter Systems protect turbochargers and other precision components from oil mist in the crankcase. Racor offers both open and closed crankcase ventilation filters depending on the specifications of the application. **Please see brochure #7790**

Air Filtration

Air cleaners, combination air filter/precleaners, and centrifugal precleaners for dust free engine performance. Racor Division offers a wide range of assemblies and replacement elements for many applications. **Please see brochure #7539**

Oil Filtration

Spin-on replacement oil filters designed to protect the engine with a high level of reliability, bypass oil filtration systems designed for high efficiency and holding capacity of contaminants, including soot, and single filters or multiple filter systems combined to meet any flow rate of lubricating or hydraulic systems requirements. **Please see brochure #7460**

Alternative Fuel Filtration

Racor offers the industry's first and most complete line of alternative fuel filter/coalescers and prefilter/strainers. From pipeline to engine, they deliver the ultra-fine filtration required by alternative fuels.

Please see brochure #7636

Fluid Transfer Systems

Racor fluid transfer systems make remote, on-demand filtering for contaminant-free fluids fast and convenient. Racor fluid transfer systems can be used to prefilter fluids, transfer fluids or to clean existing systems.

Please see brochure #7771

Diesel Fuel Heaters

Racor offers coolant heat exchange heaters, in-fuel-line heaters, in-tank heaters, electric heaters in their fuel filter bowls, and stand alone electric fuel heaters. A fuel heater is a must have item for the winter months and for Biodiesel applications.

Please see brochure #7749

Coolant Filtration

Filtration systems, coolant system cleaners, coolant corrosion inhibitors, and coolant modules. Spin-on retrofit for light-duty truck and heavy-duty truck applications.

Please see brochure #7647

ParFit™ Hydraulic Replacement Elements

The competitively priced ParFit™ hydraulic elements are interchangeable with OEM and aftermarket elements to allow the users to acquire all their replacement elements from one quality source. Racor ParFit™ hydraulic replacement elements conform to all the same rigorous tests as the standard replacement elements.

Please see brochure #7729

Additives and Synthetic Oil (CJ-4)

Racor additives are performance-enhancing products for all climates and seasons. The high concentration of active ingredients in Racor additives allows for higher treatment rates. All Racor fuel additives are alcohol-free.

Please see brochure #7518
