

**280/870 “M” Shift Option Code Change**

In an effort to maintain consistency across the entire PTO portfolio, Chelsea has decided to change the original 280/870 Shift Option Code for “12V w/o Installation Kit” from “M” to “E.” This change will allow Chelsea to reserve “M” for constant mesh PTOs only.

NOTE: This change does not affect the 277 Series as it is a Legacy product, but a 277 that needs to be replaced with a 280 Series PTO, the “E” Shift Option Code will be used in place of the 277\*\*\*\*-M Shift Option code if the 12V Electric over Hydraulic without Installation Kit is the desired option.

This change is effective September 15, 2015.

**Shift Option Codes**

B	12V Electric over Hydraulic
D	24V Electric over Hydraulic
G	12V Electric over Hydraulic with Remote Valve
H	24V Electric over Hydraulic with Remote Valve
K	12V Electric over Hydraulic with Electronic Overspeed (EOC)
L	24V Electric over Hydraulic with Electronic Overspeed (EOC)
E	<b>12V Electric over Hydraulic without Installation Kit</b>
N	24V Electric over Hydraulic without Installation Kit
S	12V Air/Electric/Hydraulic with PTO/Dump Pump Combo Valve – PTO Kick out & Neutral Spring Return
T	12V Air/Electric/Hydraulic with PTO/Dump Pump Combo Valve – Less PTO Kick out with Neutral Spring Return
