

SOLENOID VALVE

COIL Nomenclature

Form 30-167
November 2012

Table I

The low force coils are identified by the coil number as follows:

#1 Size Coils*

MKC-118	24/60
MKC-119	120/60
MKC-121	240/60
MKC-124	240/50
MKC-127	24/50
MKC-129	120/50
MKC-135	415/50

#2 Size Coils*

MKC-218	24/60
MKC-219	120/60
MKC-221	240/60
MKC-224	240/50
MKC-227	24/50
MKC-229	120/50
MKC-235	415/50
MKC-260	24/50-60
OMKC-219	120/60
OMKC-221	240/60
OMKC-224	240/50
OMKC-229	120/50

*For low force coils, please consult
Sporlan Division for availability.

COIL KIT	24 VOLTS/ 50-60 CYCLES		120 VOLTS/ 50-60 CYCLES		240 VOLTS/ 50-60 CYCLES		TRANSFORMER RATING VOLTS-AMPERES FOR 100% OF RATED MOPD OF VALVE
	CURRENT-AMPERES		CURRENT-AMPERES		CURRENT-AMPERES		
	INRUSH	HOLDING	INRUSH	HOLDING	INRUSH	HOLDING	
MKC-1	1.9	.63	.39	.14	.19	.09	60
MKC-2 OMKC-2	3.1	1.4	.60	.26	.31	.13	100

- All current values are based on 60 cycles.
- Volt-ampere ratings are based on inrush currents.
- Above values are based on the most severe conditions. - Consult Sporlan Division for coil characteristics on specific valve types.

Wiring Schematic —
Dual Voltage Coil

Lead Wire Color Code

For ease of identification, coils are manufactured with the following colored lead wires:

24/50-60	Orange
120/50-60	Blue
208/50-60	Yellow
208-240/50-60	Red
Dual Voltage	Black, Blue, Yellow, Red

All other coils are supplied with black lead wires.

Sporlan Division, Parker Hannifin Corporation
206 Lange Drive, Washington, MO 63090 USA

www.sporlan.com

(O)	MKC	-I	?	I20/50-60	J	A	K	30	Y
-----	-----	----	---	-----------	---	---	---	----	---

Spade and DIN coils will not have these designations after the voltage

- *Connector on end of leadwire
 - ~~B~~ – 1/4" female spade disconnect, barrel insulated, both wires (N/A)
 - ~~C~~ – 1/4" female spade disconnect, fully insulated both wires
 - ~~P~~ – 1/4" female spade disconnect, fully insulated, only on one wire
 - ~~Y~~ – 1/4" fork terminal, barrel insulated
 - ~~N~~ – Packard Connector, metri-pak #15300027
 - ~~N2~~ – Packard Connector, weather-pak #12015792
 - ~~N3~~ – Packard Connector, weather-pak #12010973

- Leadwire length in inches, if different from below
 - Junction box – 6 inches unless otherwise specified
 - Conduit – 20 inches unless otherwise specified
 - Lead only – 20 inches unless otherwise specified

Note: Length is measured from the end of the wire to the point where it enters the molded coil

- Leadwire color
 - ~~K~~ – Black; used on all DC coils and odd voltages not listed below
 - ~~M~~ – Blue; used on 120/50-60 coils
 - ~~N~~ – Red; used on 208-240/50-60 coils
 - ~~Q~~ – Orange; used on 24/50-60 coils
 - ~~*L~~ – White; special used only on one coil, customer request
 - ~~U~~ – Red/Black/Yellow/Blue used on Dual voltage coils (4 wires)

- Leadwire insulation thickness (all but three coils are "A")
 - ~~A~~ – 1/32" thick insulation, 18 AWG, 125°C, 600V
 - ~~*B~~ – 4/64" thick insulation, also know as "appliance leadwire", 18 AWG, 125°C, 600V

- ~~J~~ – Junction box
- ~~C~~ – Conduit Boss, NEMA 4 Watertight
- ~~L~~ – Leads only, also called "less boss and box"

- Voltage rating:
 - Standard – 24/50-60, 120/50-60, 208-240/50-60, Dual (120-208-240/50-60), 12DC, 24DC
 - Others – Upon request and review

- Coil termination type:
 - Blank – leads
 - ~~S or TS~~ – Top Spade
 - ~~E~~ – DIN

- Coil size: These are shown in the catalog at the specifications section for each valve
 - ~~1~~ – e.g.: E2, A3, E3, E5, B/E6, E35, W3, W6, R183, R184, R246, SORIT, SORIT-PI, SHGB8, B5D, 8D, 12D, 16D (12/03 and after), OLDR16 etc.
 - ~~2~~ – e.g.: B/E9, B/E10, B/E14, B/E19, B/E25, B33, E34, E42, 16D (Prior to 12/03), W14, W19, W25, DDR, OLDR15, SHGB15, etc.

Note: Three digits in this position indicate special "low-force" coil, e.g. MKC-119 120/60 JAK, see Table 1

Molded Kit Coil

- Blank – Used on normally closed valves
- O** – Used on normally open valves, the valve name will start with O, as in OE25
Also used on rapid cycle valves

* Min. order qty. is required. Please consult with Sporlan Division for availability.
For items with strikethrough, please consult with Sporlan Division.
