High Pressure Hydraulic-Flanges

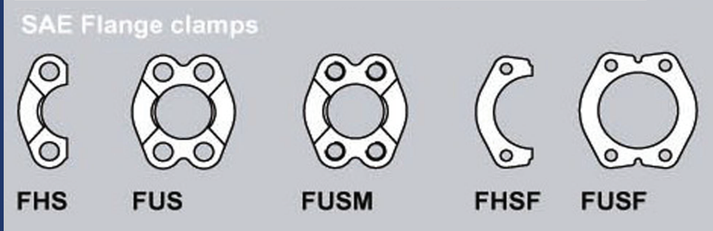

Features, advantages and benefits

The Parker-Ermeto flange programme offers worldwide accepted advantages. Especially in the range of large sizes.

- Flange connections available in sizes ½ up to 5 inches
- Tube O.D. from 12mm up to 140mm
- Pressure rates up to 420 bar (6000 PSI)
- Flanges with all standard ISO threads available
- Compact forging-design in a wide range
- Complete flange-adapter range
- Available in steel and stainless steel
- Ordering as individual as necessary

Specials

- Customer specified flange solutions
  - ►Bigger tube sizes especially O.D. > 140mm
  - ►Individual surfaces/materials
  - ►Special geometry/shapes/jump-sizes
  - ►More than 4 bolts flange solutions
- CAD constructions acc. to customer request
