New Turbine "V" Series Service Filters

2020V/2040V fuel filter/water separator service filters for new Racor Turbine Series FV and VMA assemblies.

The Turbine service filters are designed for the new 900FV, 1000FV, 900VMA, and 1000VMA (marine application). The service filters are backward compatible with previous models. ***Note: Old and current service filter part numbers will not work in the new FV and VMA housings. New part numbers are backward compatible with previous models.***

Features and Benefits:

- Toolless, easy grip bail design for quick and comfortable service filter removal. Includes lid gasket and t-handle o-ring.
- Aquabloc® Synergy media is designed for the best filtration to meet today's fuel challenges.
- Fits previous models of Racor Turbine housings including marine versions.
- Manufactured in the USA.
