Hydraulic steel-clamps

Hydraulic steel-clamps

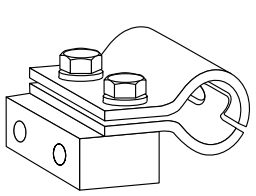

Order code **HSRS-∗**
W1: steel coating ZN

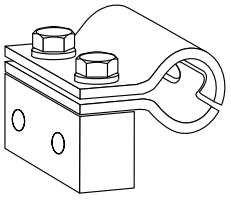

∗ please add. Ø D

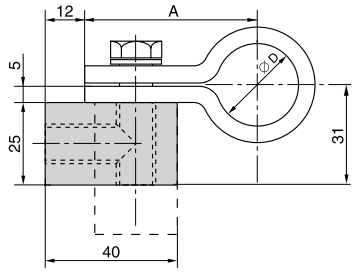

HSRS hydraulic steel-clamps are mainly used in the field of building machinery.

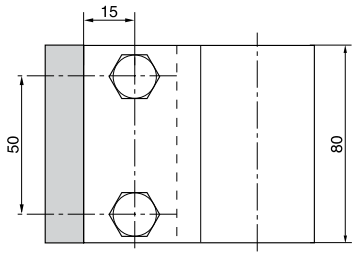

The support-block is welded to the machine body or another component either in upend or flat position. The tube-clamp is screwed on.

The robust construction of the clamp has an impact- and vibration-absorbing effect. The small dimension/height of the clamp allows hydraulic cables to be fitted later on – e. g. for installing additional equipment to building machinery.

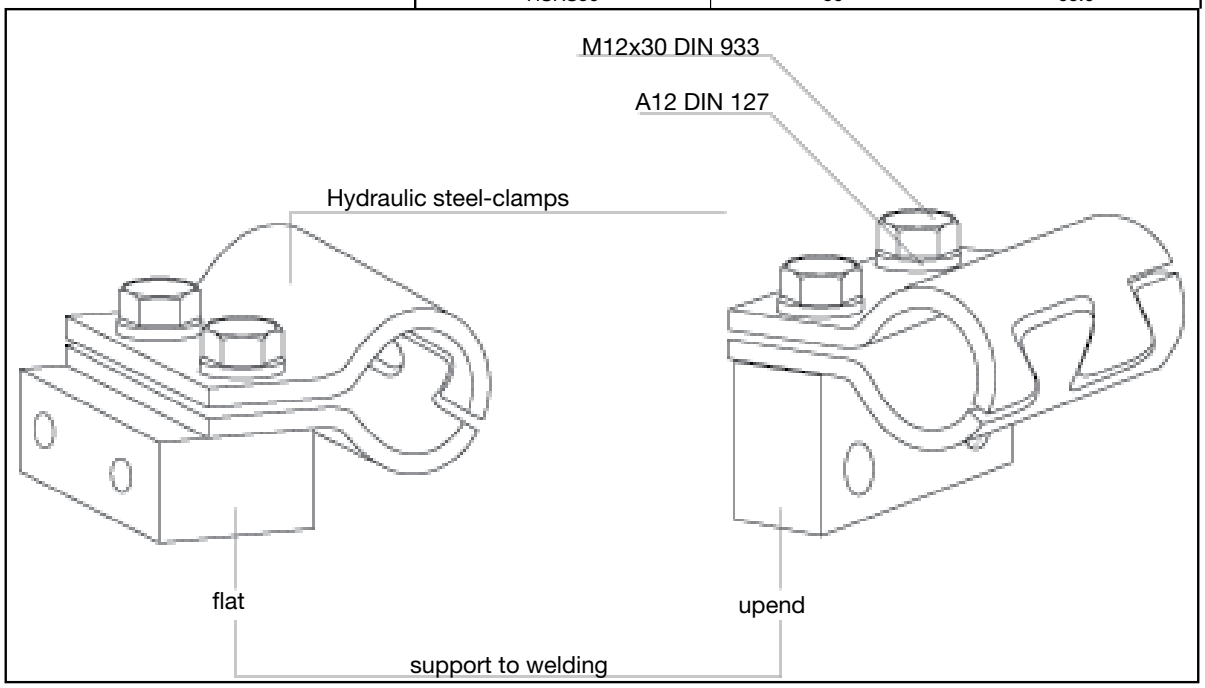

Order code	Measurement Ø D	A
HSRS25	25	52.5
HSRS30	30	55.0
HSRS35	35	57.5
HSRS38	38	59.0
HSRS42	42	61.0
HSRS50	50	65.0

Hydraulic steel-clamps

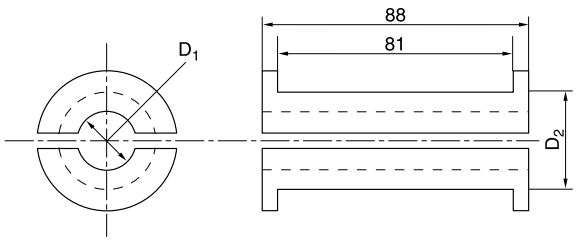

Elastomere Inlay for HSRS

Order code **EE-✱**
✱ complete outside tube diameter

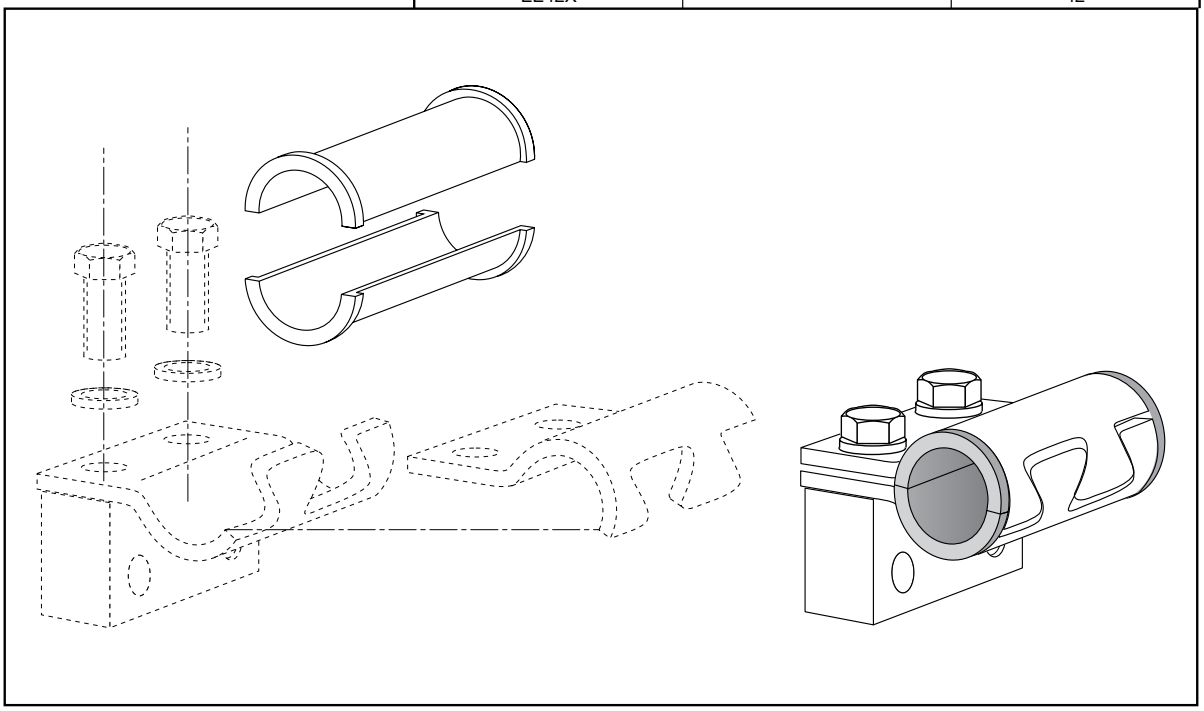

Hydraulic steel tube clamp HSRS also available with Elastomere inlay

The advantages:
- complete outside tube diameter
- Safe fastening method even for very sensitive tube and hoses lines
- Only one clamp for different tube diameters

Material:
Santoprene 64 Shore
- high oil and weathering resistance
- temperature stability between –40 °C and +125°C
