MKC

Type Coils for High Pressure E Series Solenoid Valves

Parker Sporlan **MKC** solenoid coils are constructed with some finest materials available. The number 1 or 2 coils are Class F and are available in many voltage and cycle ratings.

The preferred coil should be selected depending on the application and based on the required: current, voltage and IP rating. If the coil with specifications different from those in the table is required, please contact your Parker Sporlan representative.

Technical Specification
